About us

CanSolvelt is a Swiss-Ukrainian consulting company with 13 years of experience in business process transformation and reorganization, IT system integration, and organizational change.

We work with medium and large companies in the USA as well as with clients around the world in various sectors including building energy management, construction, manufacturing, pharmaceutical, and technology.

... among our clients.

The Resource Pain Teams Face Today

01 Key specialists overloaded while others appear underutilized

02 Missed deadlines caused by hidden capacity conflicts

03 Frequent last-minute reprioritization of tasks

04 Budget overruns due to reactive staffing decisions

05 Burnout and employee dissatisfaction

06 Inconsistent reporting across projects

07 Leadership lacking confidence in resource forecasts

- 01** No centralized capacity planning across projects
- 02** Resource allocation managed separately by each project manager
- 03** Workload tracked in disconnected spreadsheets or systems
- 04** No real-time visibility into cross-project allocations
- 05** Lack of standardized resource roles and planning logic
- 06** No early-warning mechanisms (heatmaps, alerts, thresholds)
- 07** Planning based on historical data instead of forward-looking forecasts
- 08** Absence of clear ownership over resource governance

**Why This
Happens?**

Introduction to Resource Management

Why RM?

cansolveit.com

Why Resource Management?

Resource Staffing: Building the Right Project Team

Capacity Planning: Scheduling + Forecasting

Dynamic Reporting: Visibility + Analytics

RM Core Capabilities

- Interactive Scheduling
- Portfolio Management
- Time + Fee Baselines and Forecasts
- Dynamic Reporting

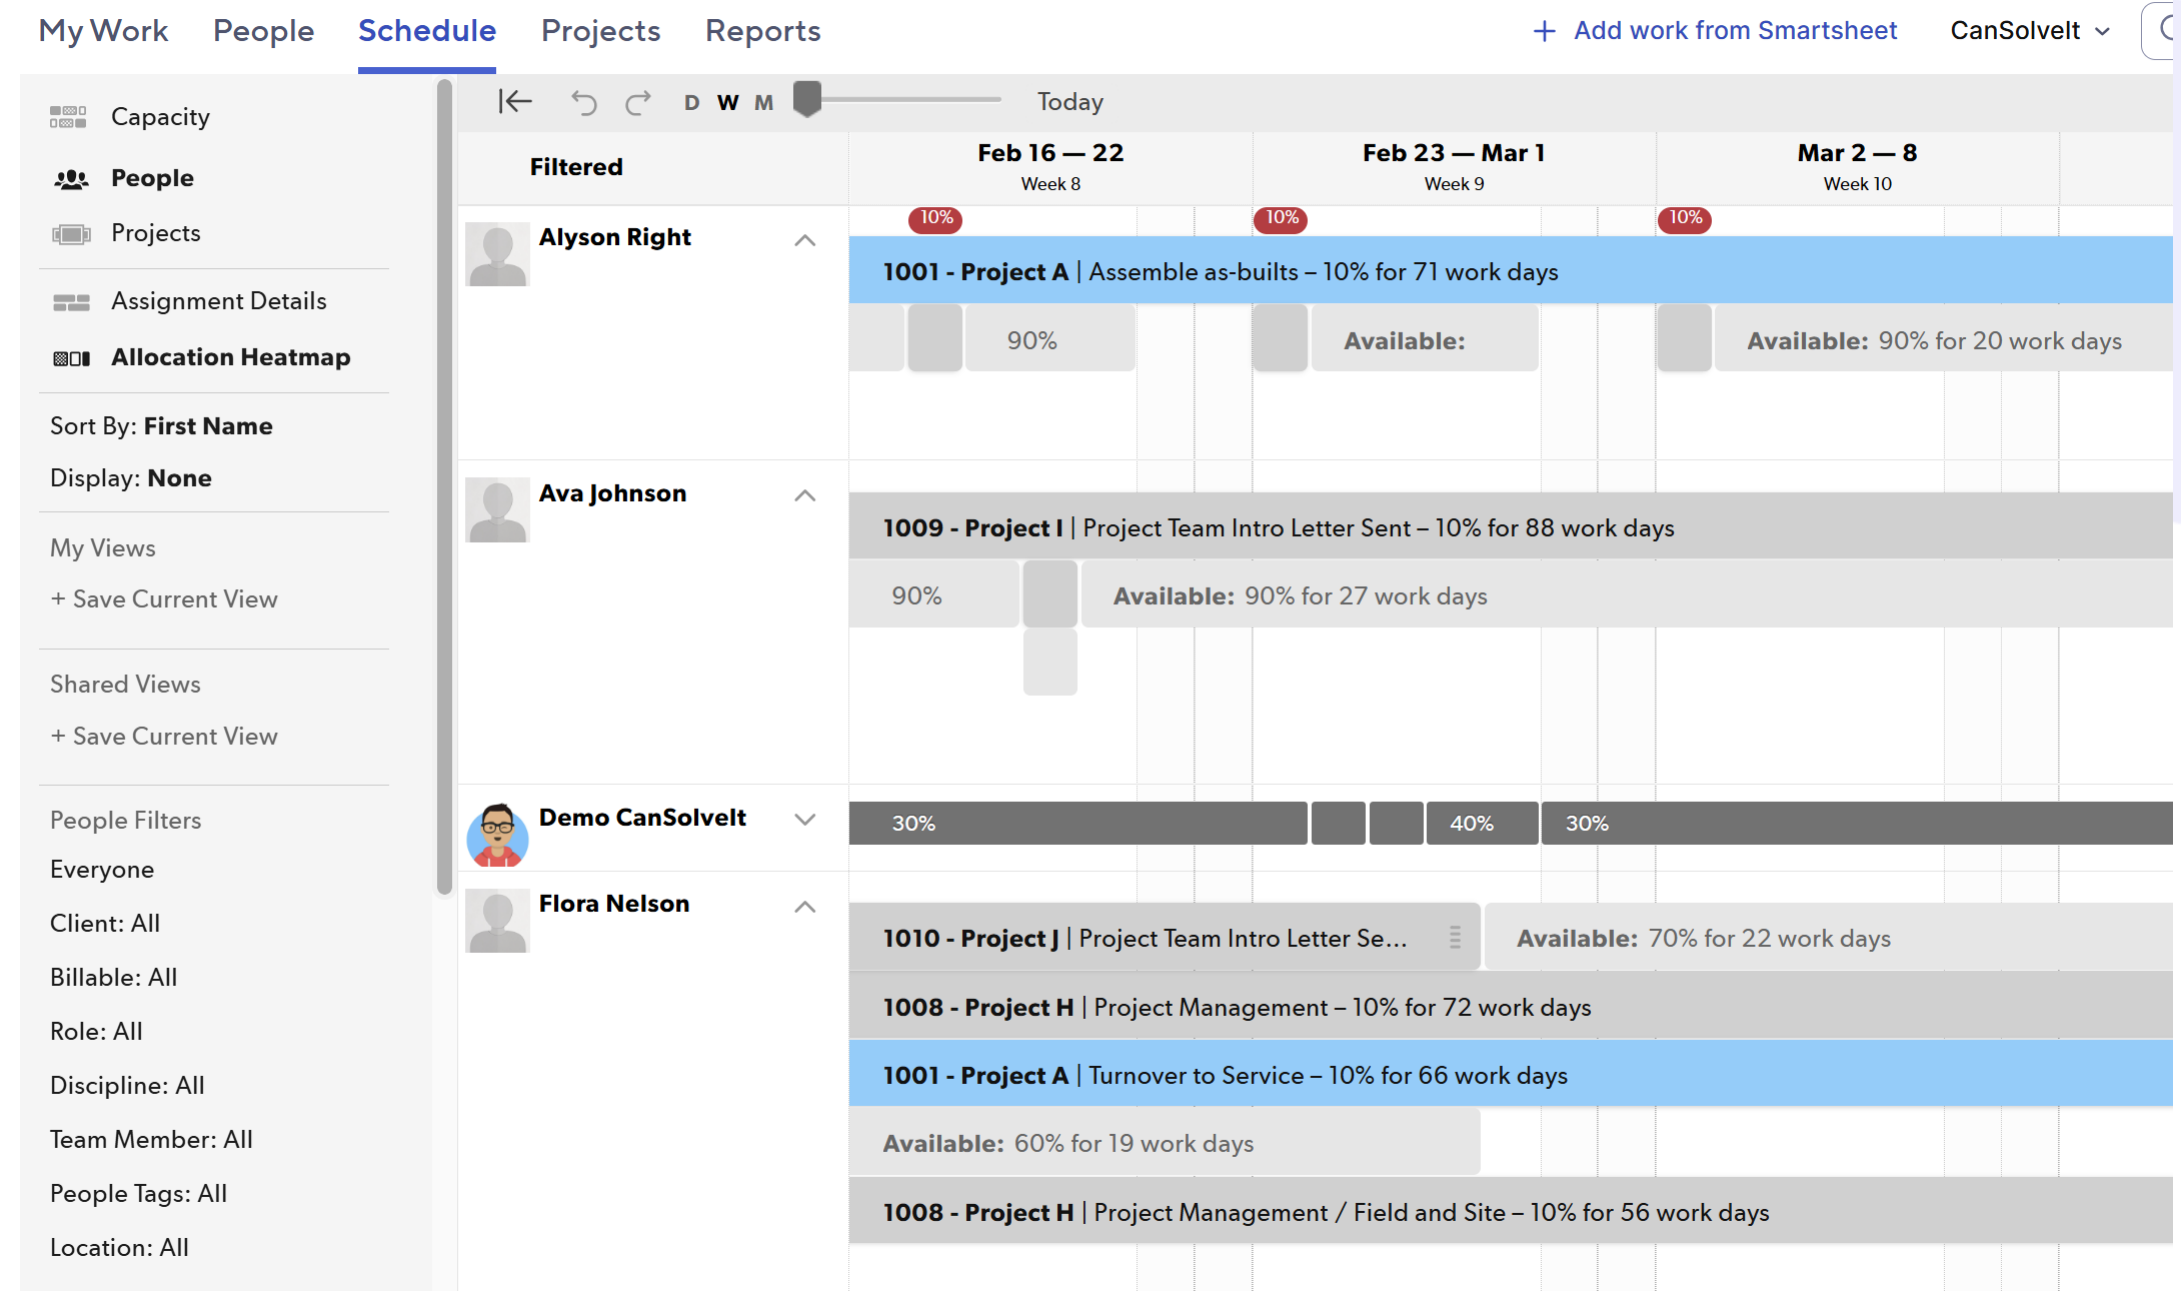

cansolveit.com

Interactive Scheduling

Not just a read-only report but a robust, interactive schedule for matching the right people to the suitable projects at the right time.

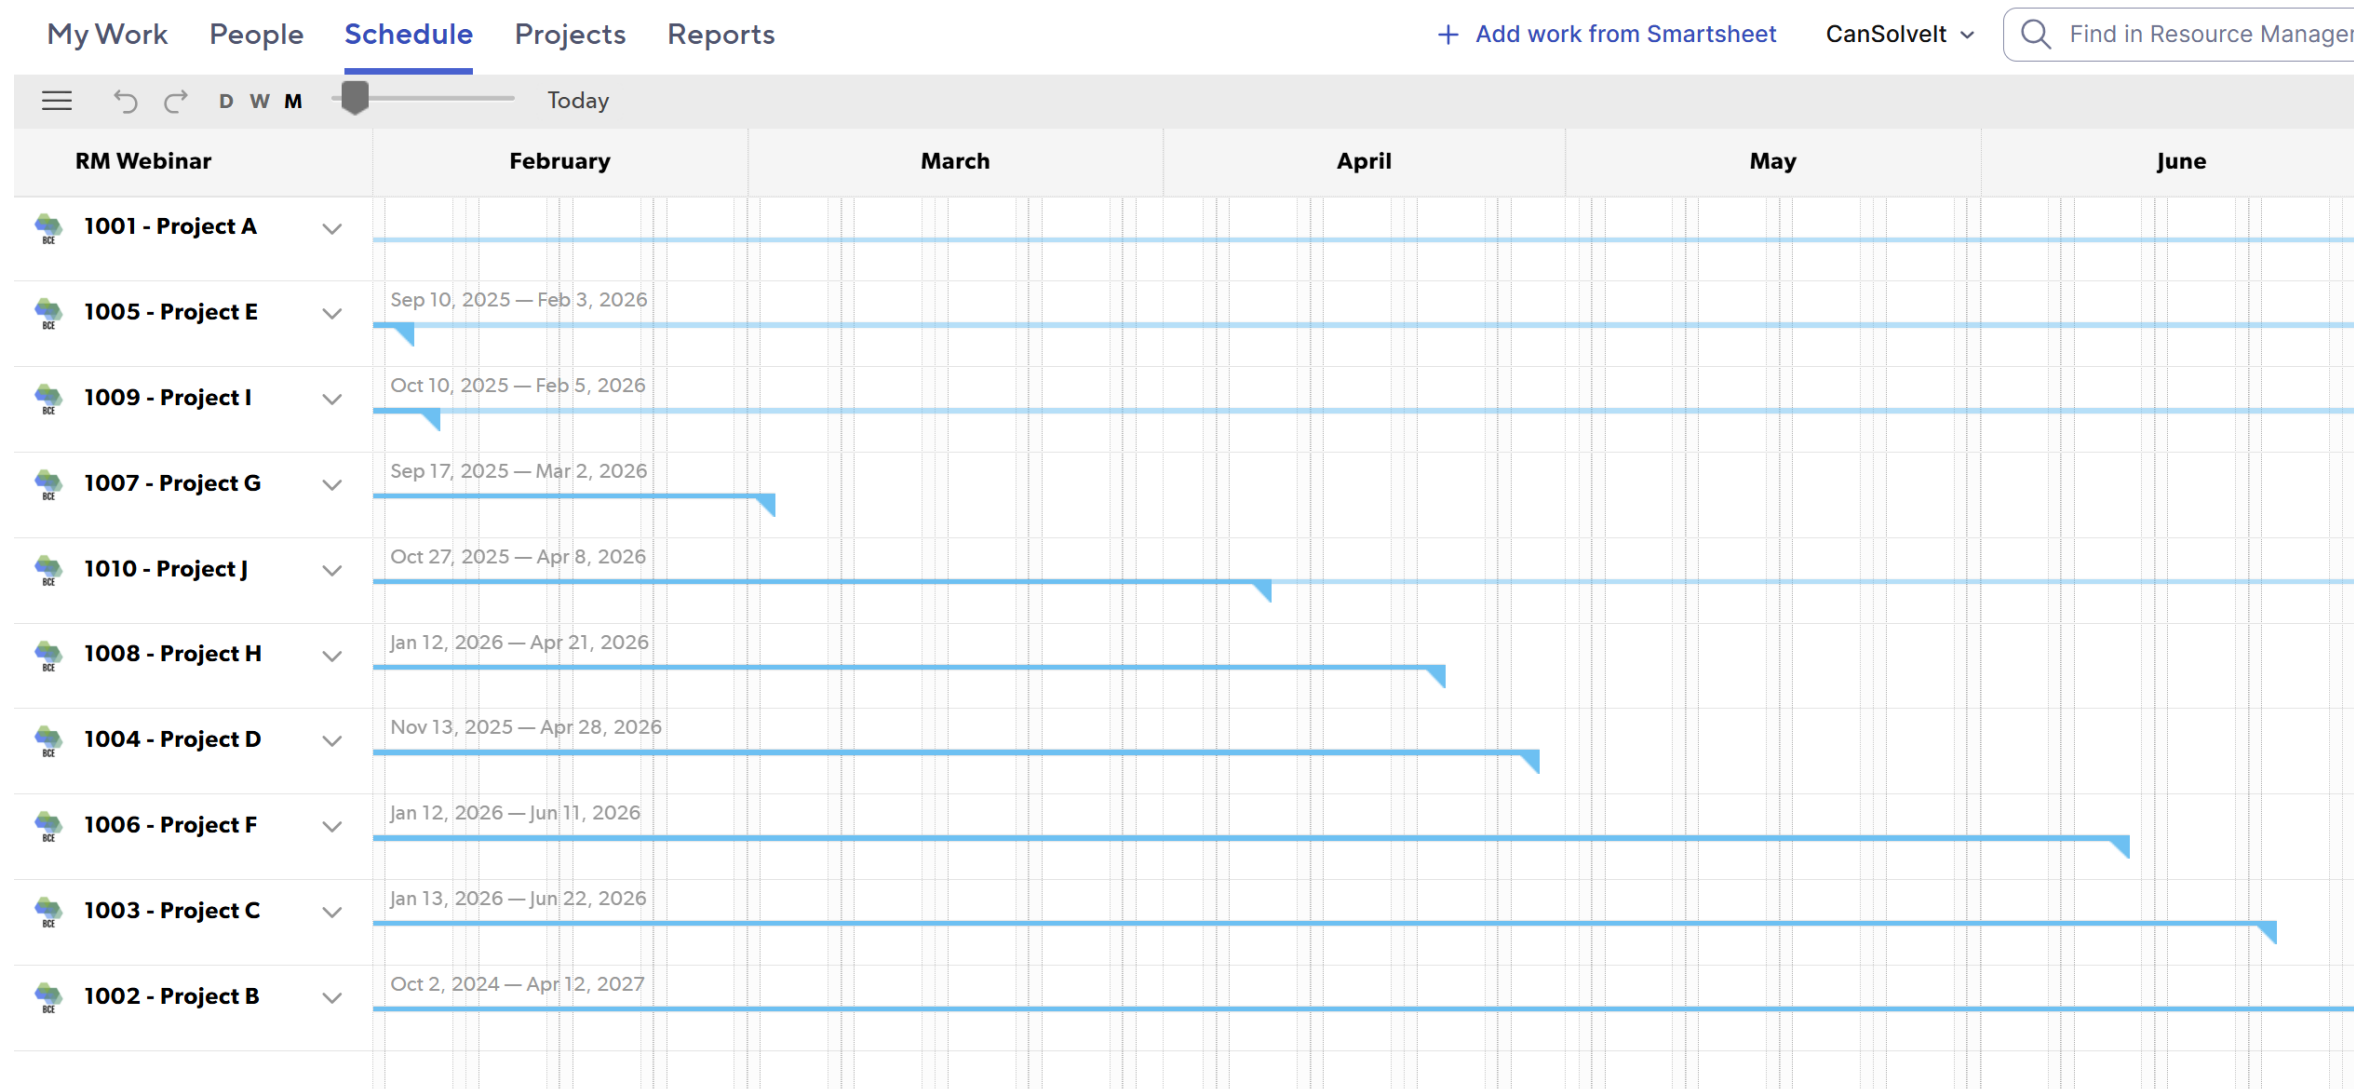

- Interactive scheduling of work
- High-level heatmap capacity view with availability sorting
- View and manage non-project work for an accurate picture of availability
- Custom sort, filter, and saved view controls

Portfolio Management

Automatically generated portfolio view of all projects - past, present, and future - providing visibility into the entire company's timeline, including future pipeline.

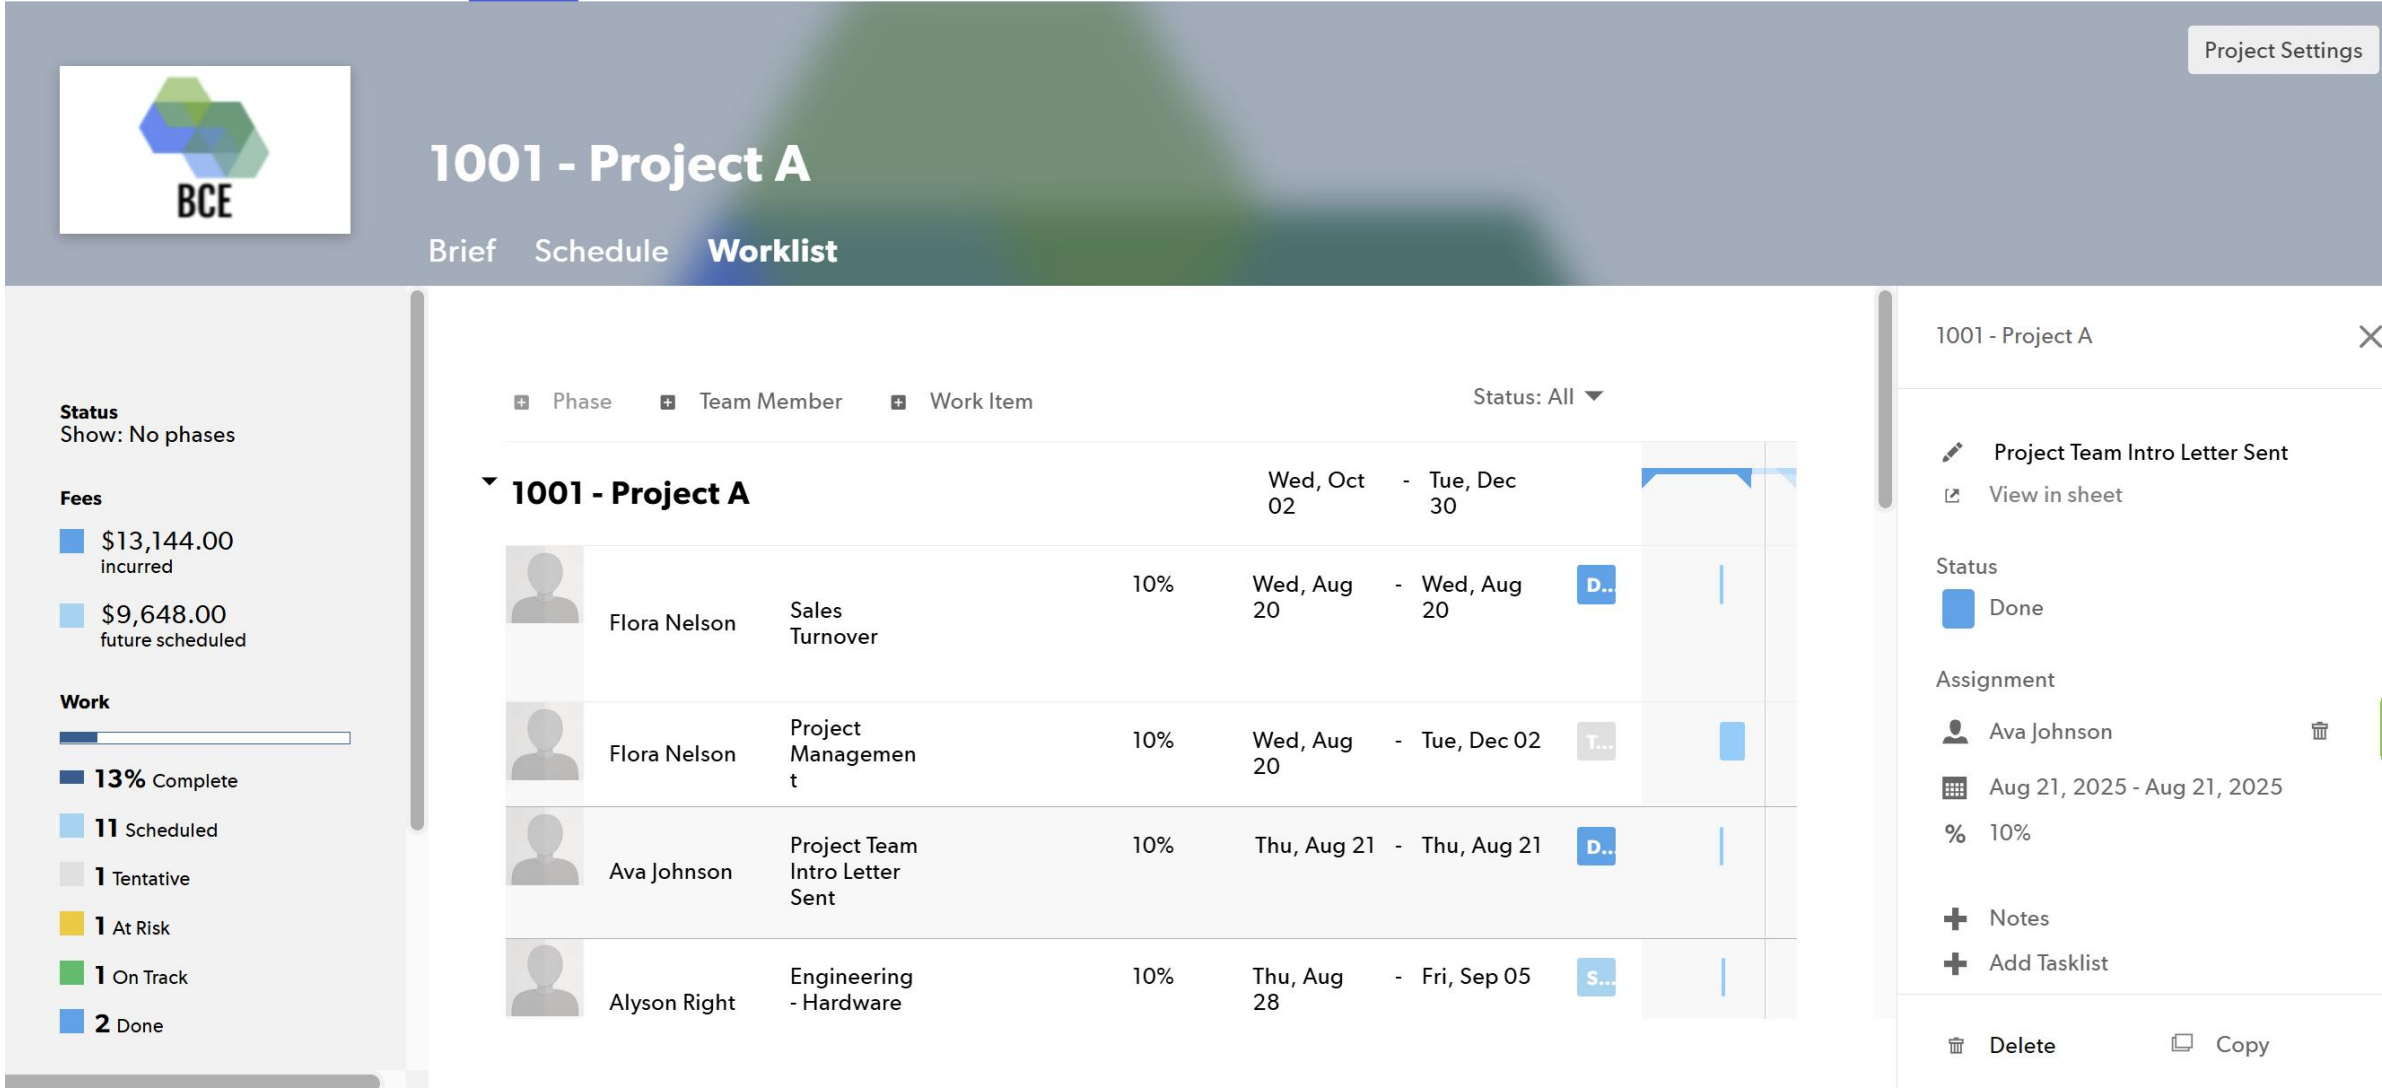

- Visualize the entire portfolio of projects across the organization on a timeline
- Improved capabilities for viewing based on start date, end date, or status

Time + Fee Baselines and Forecasts

Time and fee budgets enable comparing time actuals against original baseline estimates, monitoring current status, and forecasting the likely outcome based on the time remaining on the project

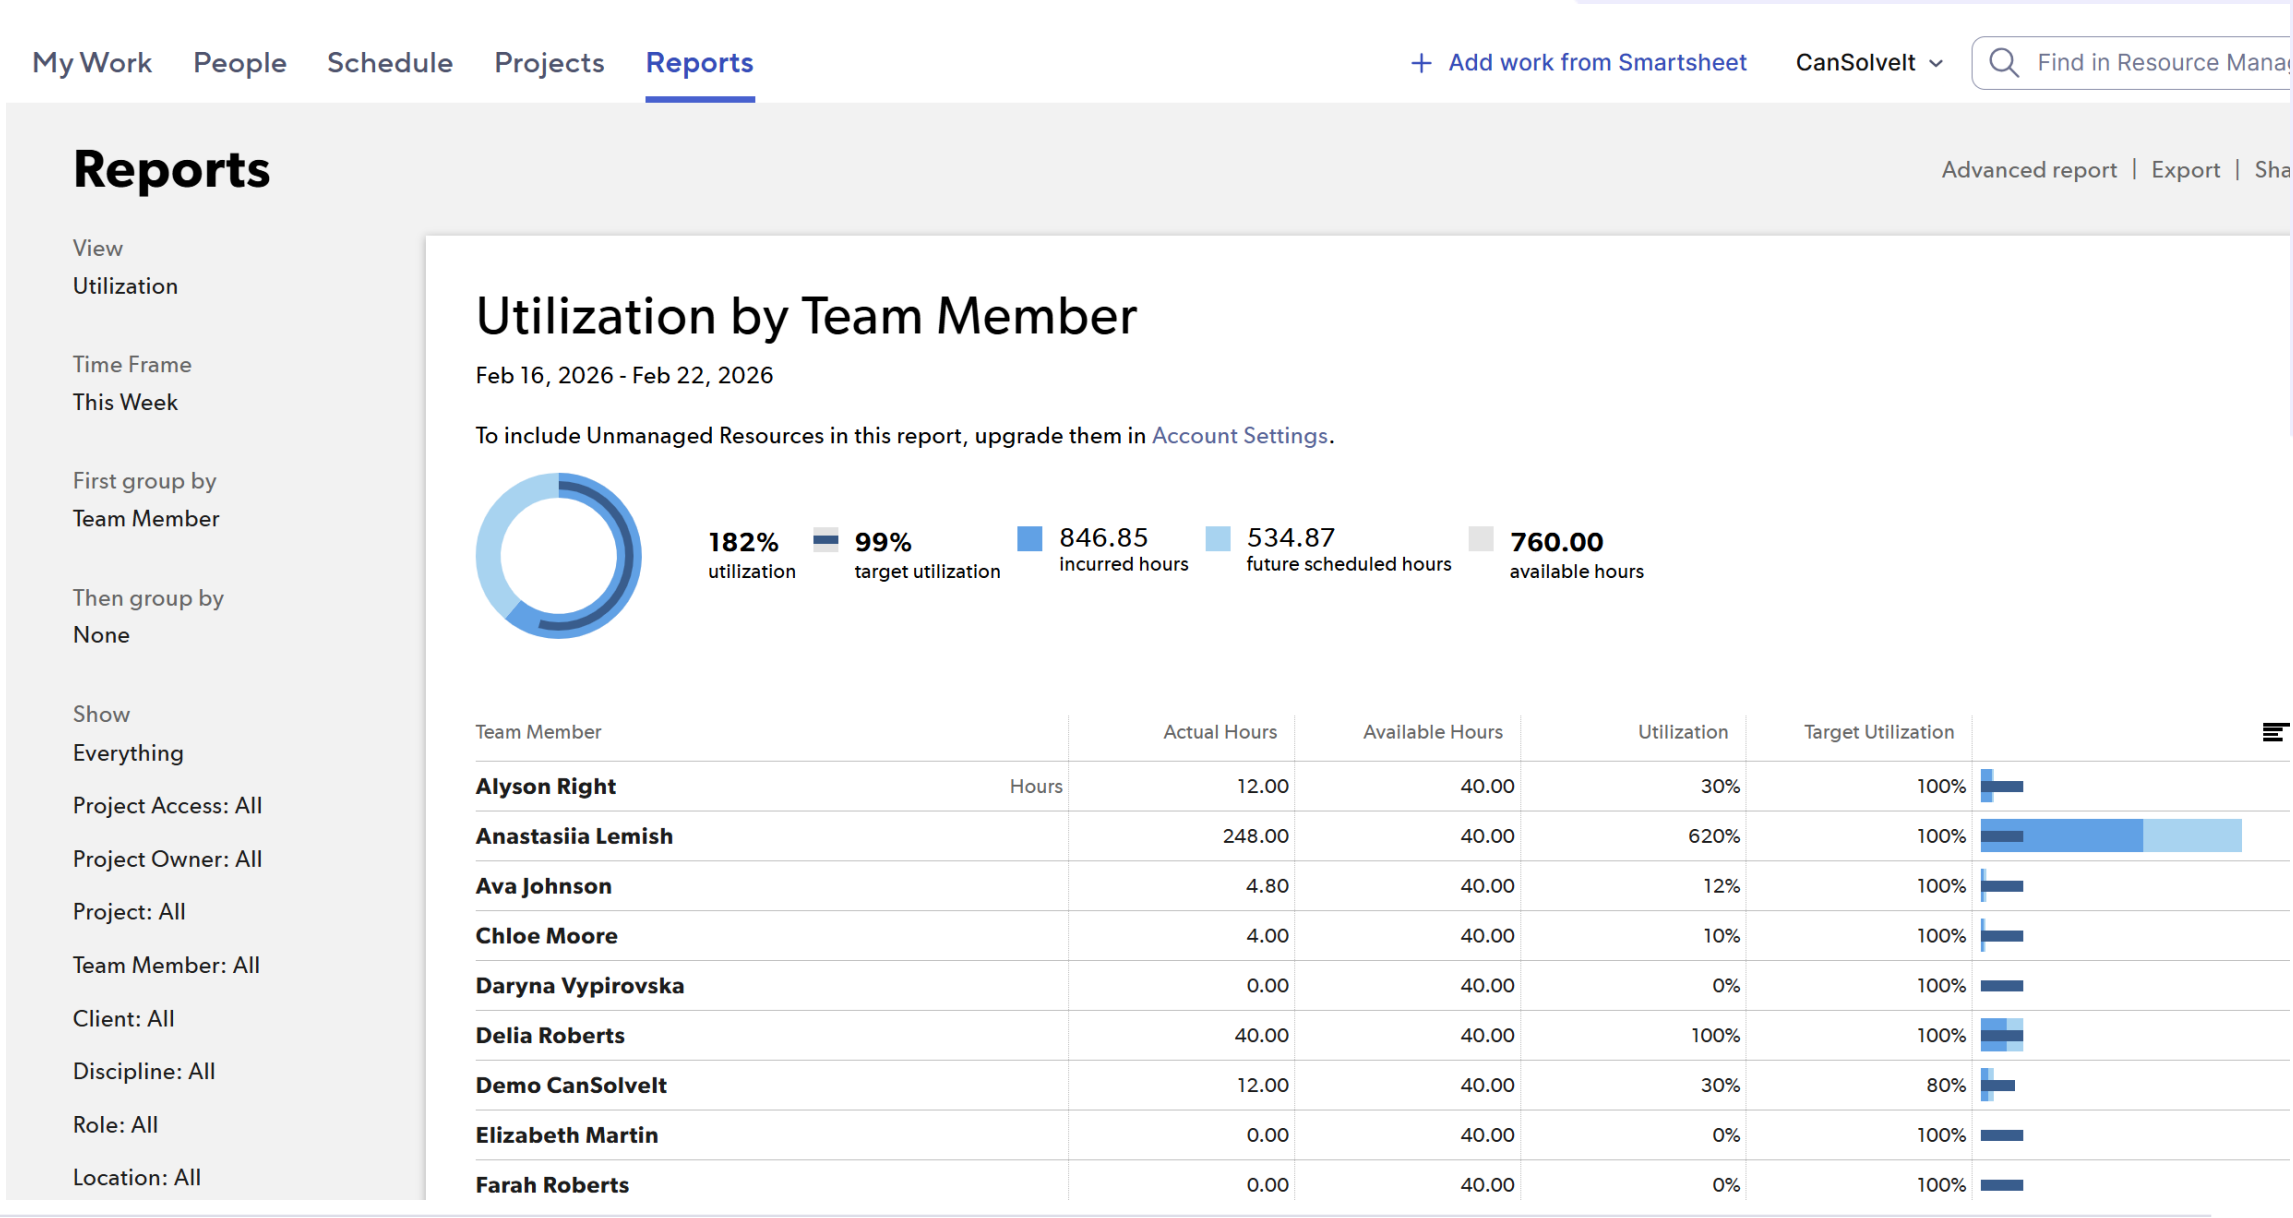

- See project schedule with current and upcoming team members
- Compare budget estimates against time actuals
- See forecasts based on the scheduled time

Dynamic Reporting

Pre-built and customizable reports provide retrospective insight into past performance and forecast future capacity and utilization

- Utilization reports for forecasting future demand vs. Capacity
- Time, fee, and budget reports for insight into past performance

Navigation to RM

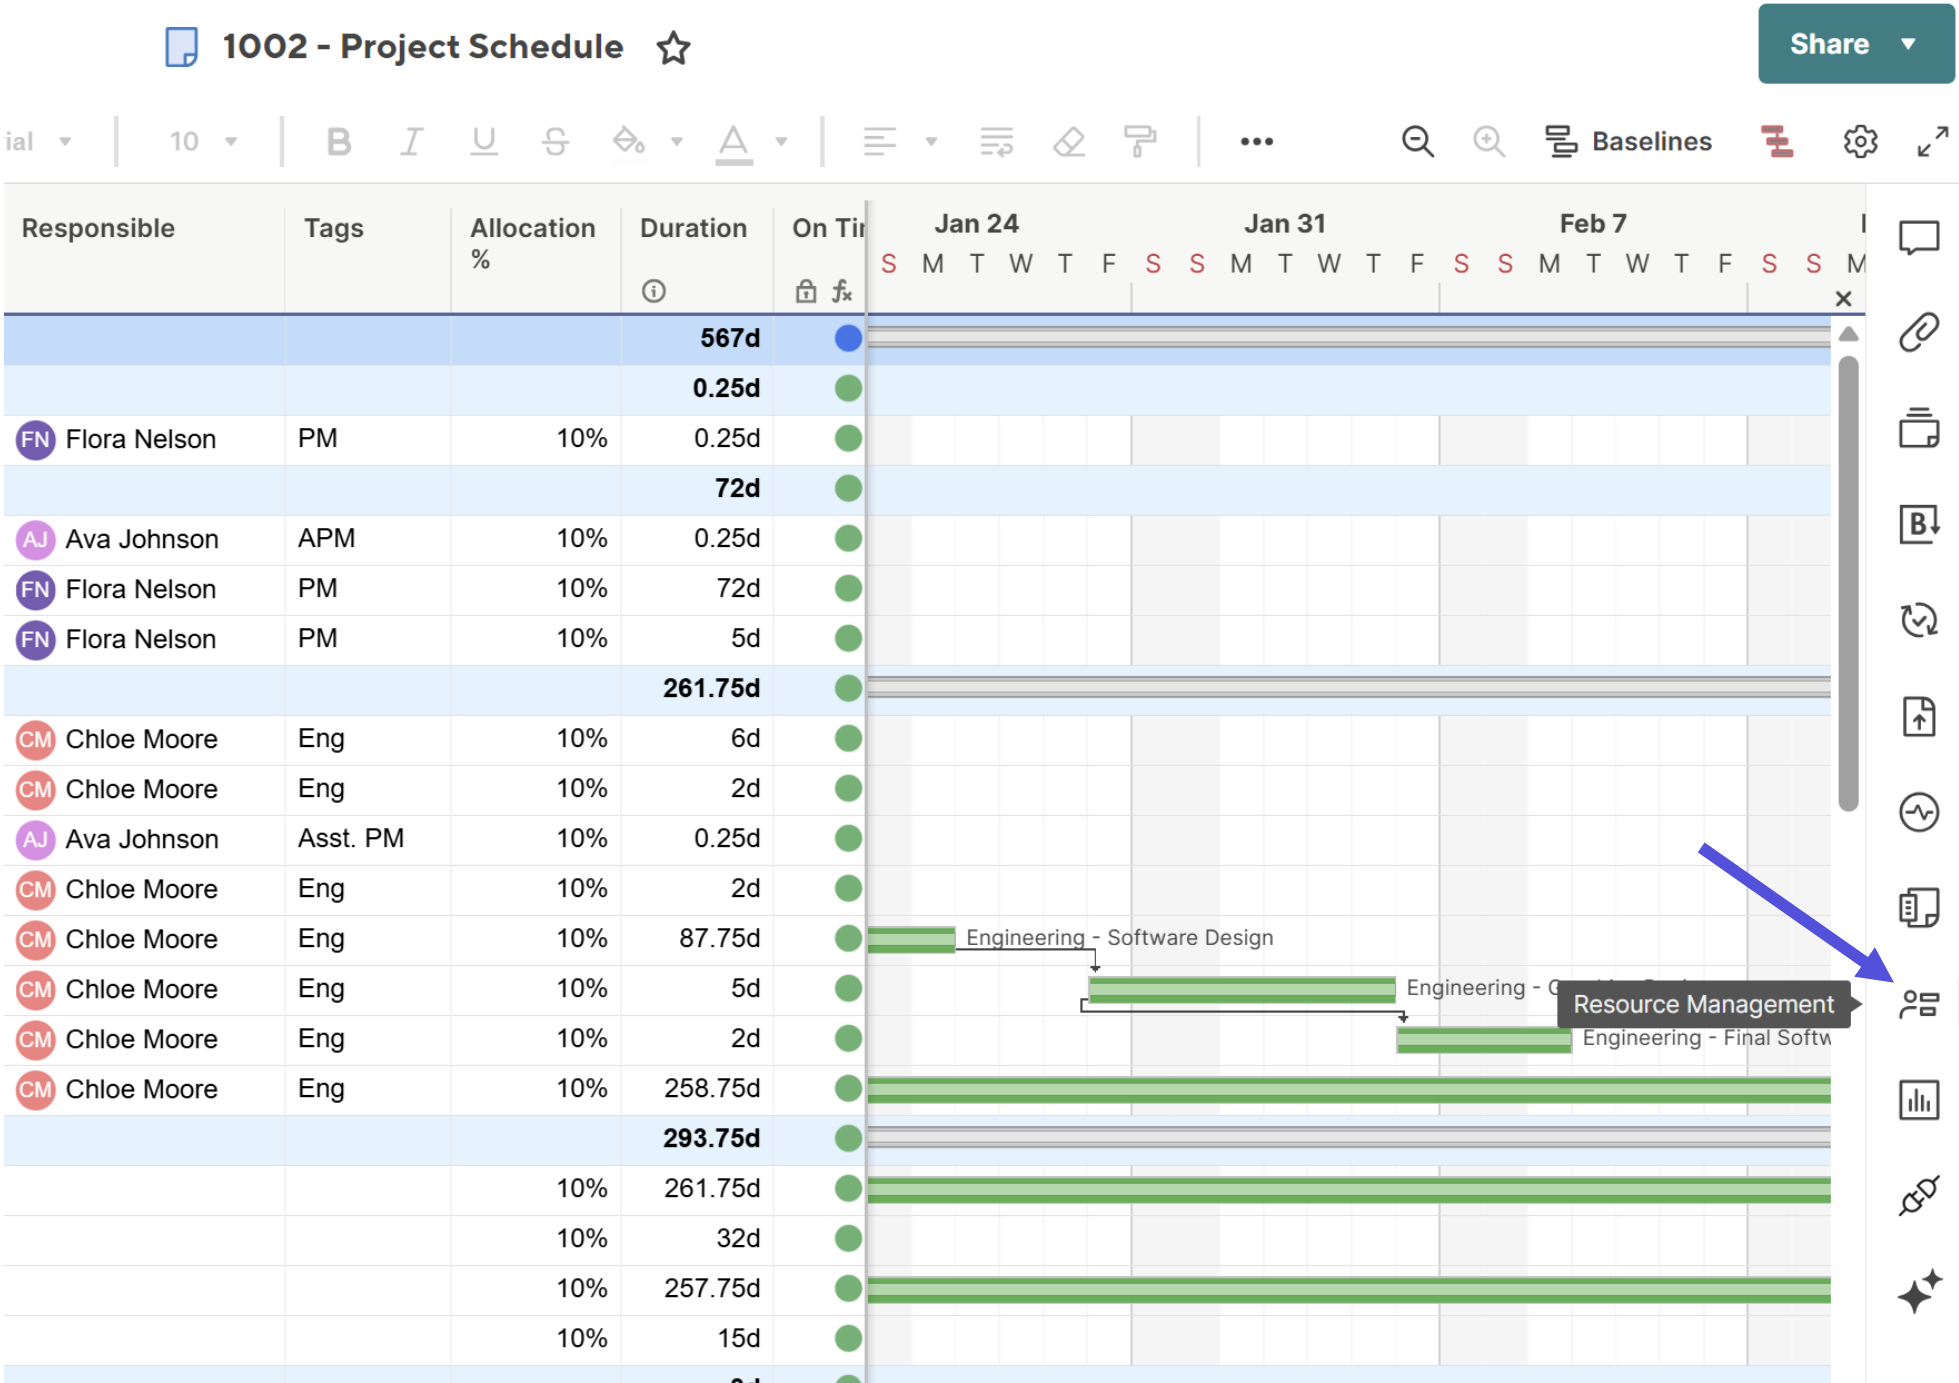

- Integration Panel in Smartsheet
- Color Legend
- Workload Schedule
- Resource Management Access

RM Integration Panel Access

To open Integration Panel in Smartsheet:

- Navigate to the Project Schedule sheet
- In the right-side panel choose Resource Management

RM Integration with Smartsheet

There are 5 key fields of information that flow between Smartsheet and RM – they need to be created and filled in respectfully

1. Task Name - primary column
2. Start Date – date of the beginning of the project
3. Completion Date - date of the end of the project
4. Responsible – assigned resource column where you choose a team member
5. Allocation % - percentage of the project assigned to the team member

Duration and Predecessors columns are important and need to be activated

 — RM Features

Smartsheet Aligned

Schedule page – Allocation Heatmap

To identify overbooked team members of a project:

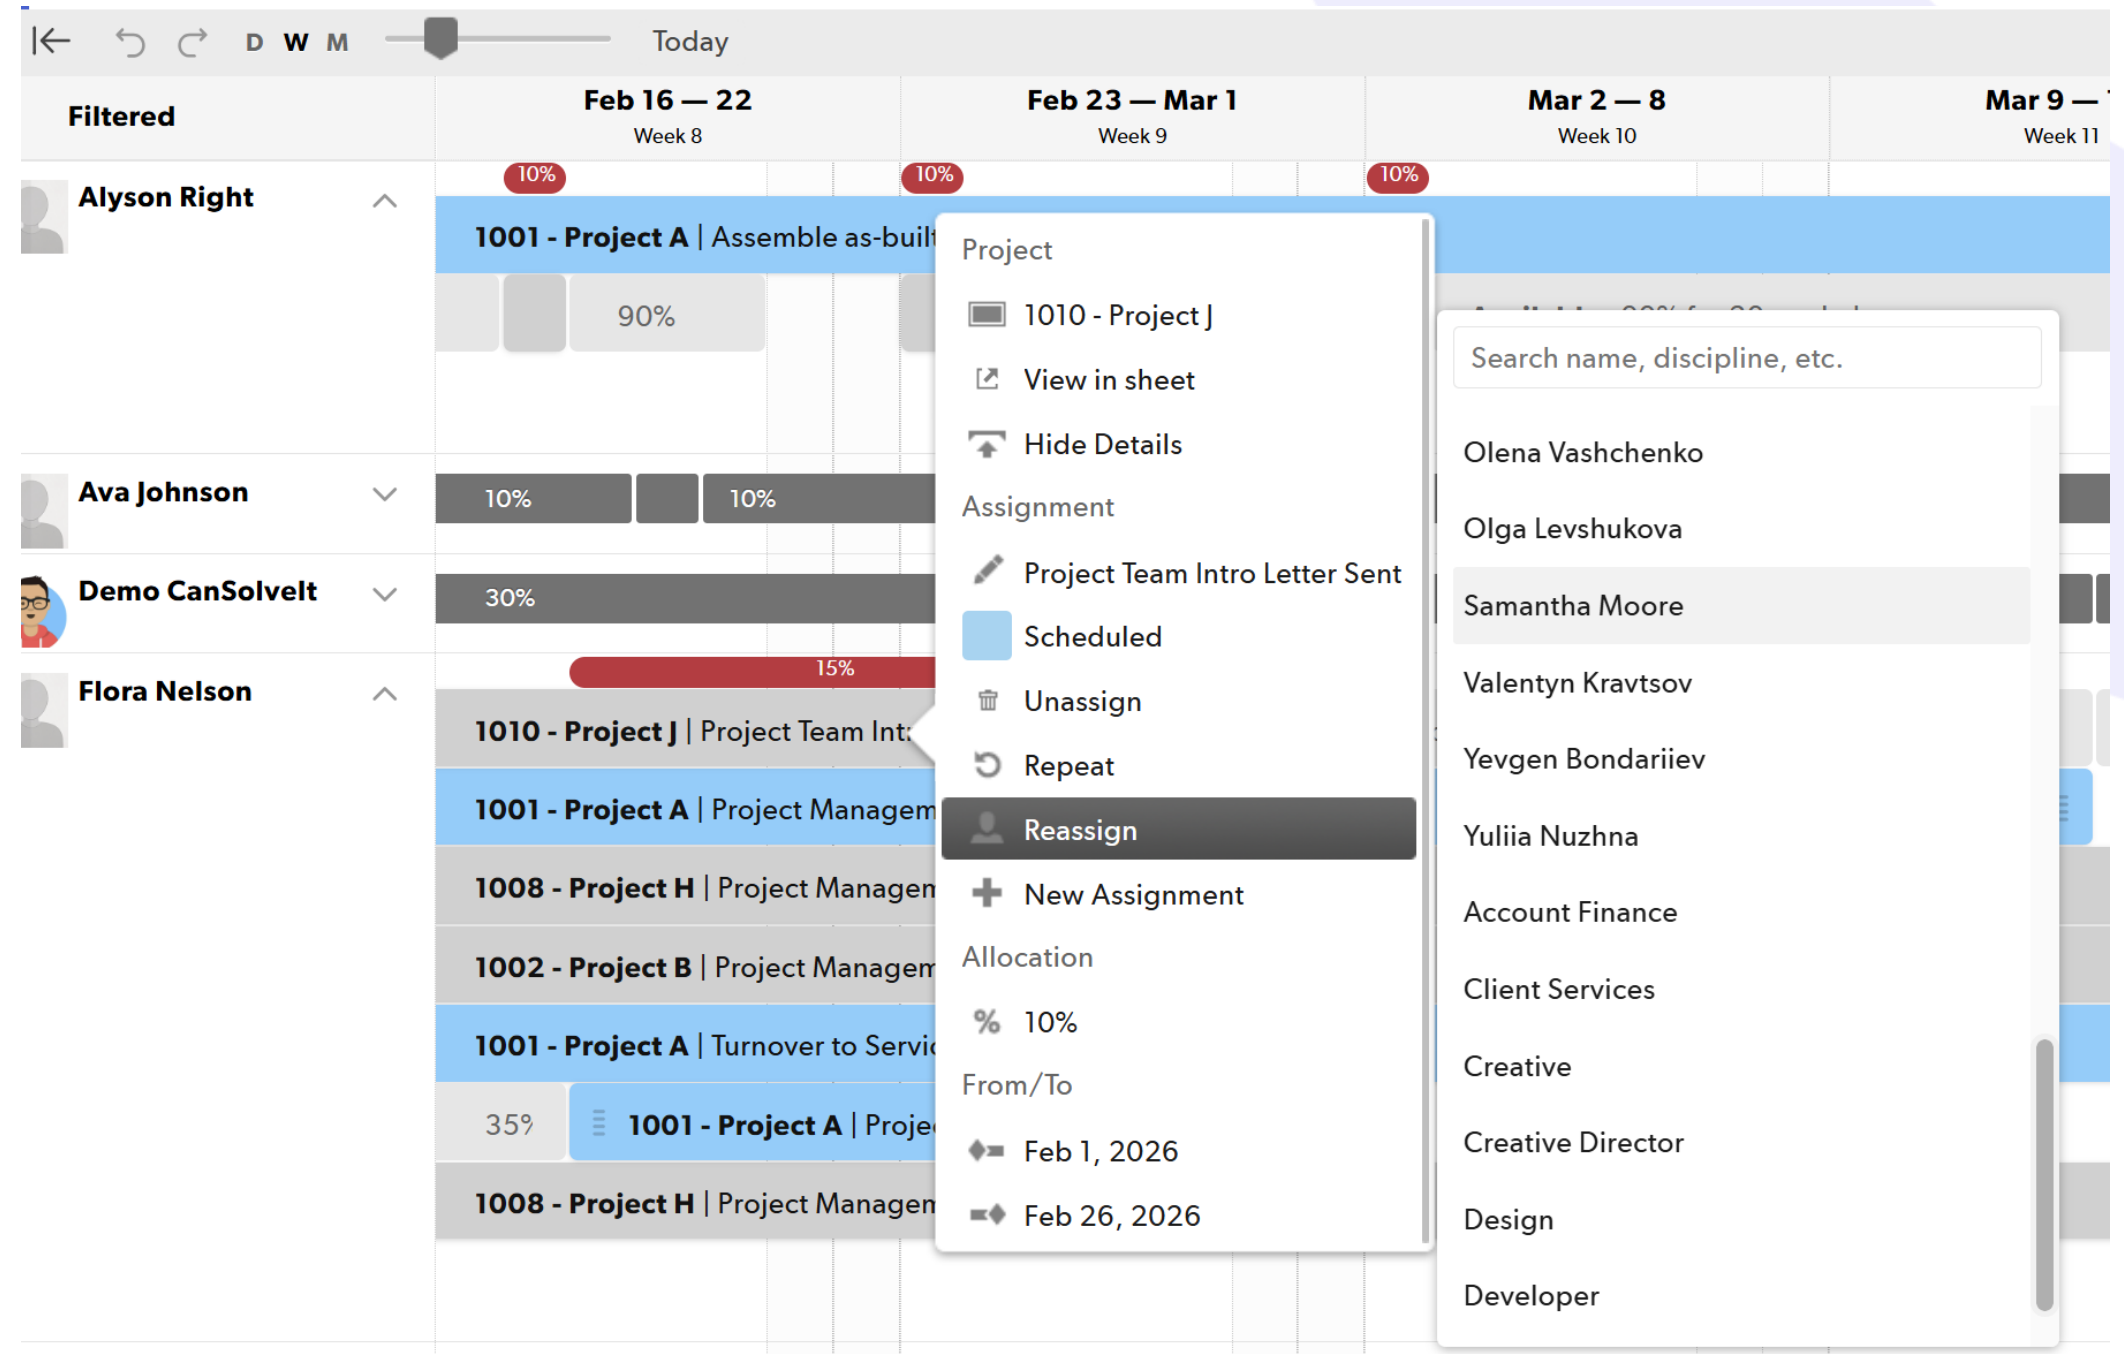

- Find a respective project
- Open Admin > Project Schedule
- Through Smartsheet navigate to RM
- Open Schedule > People > Allocation Heatmap
- You can open the details using the arrow near the team member

Schedule page – Reassigning

To reassign overbooked team members of a project:

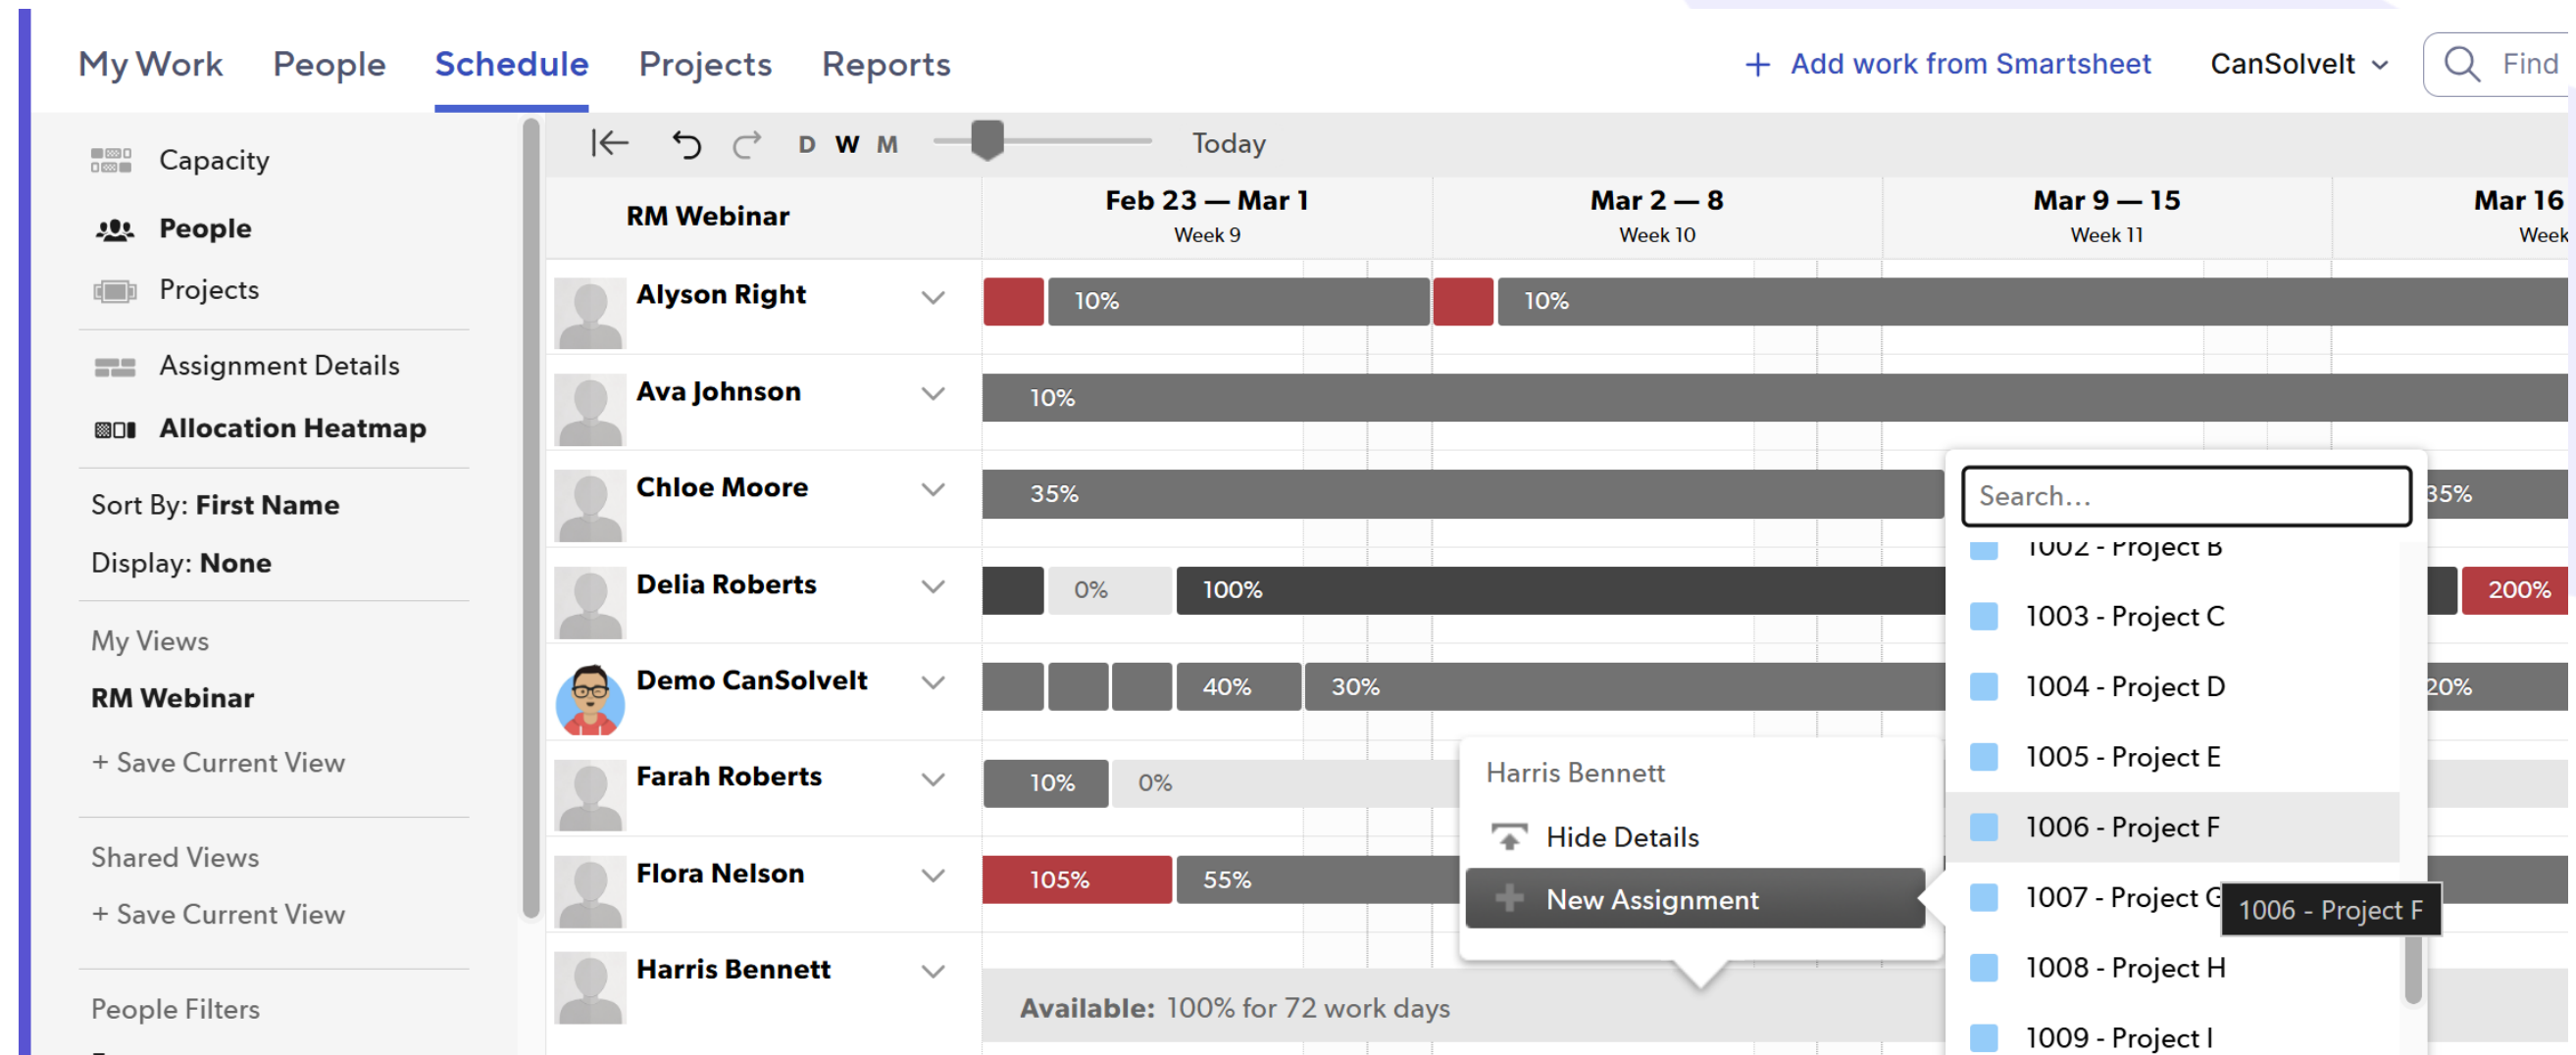

- Open Schedule > People > Allocation Heatmap
- Choose appropriate filters from the left-side panel
- Open the details using the arrow near the team member
- Right-click on a team member > choose Reassign
- Pick appropriate team member who matches same qualities

Schedule page – Add New Assignment

To assign a new work:

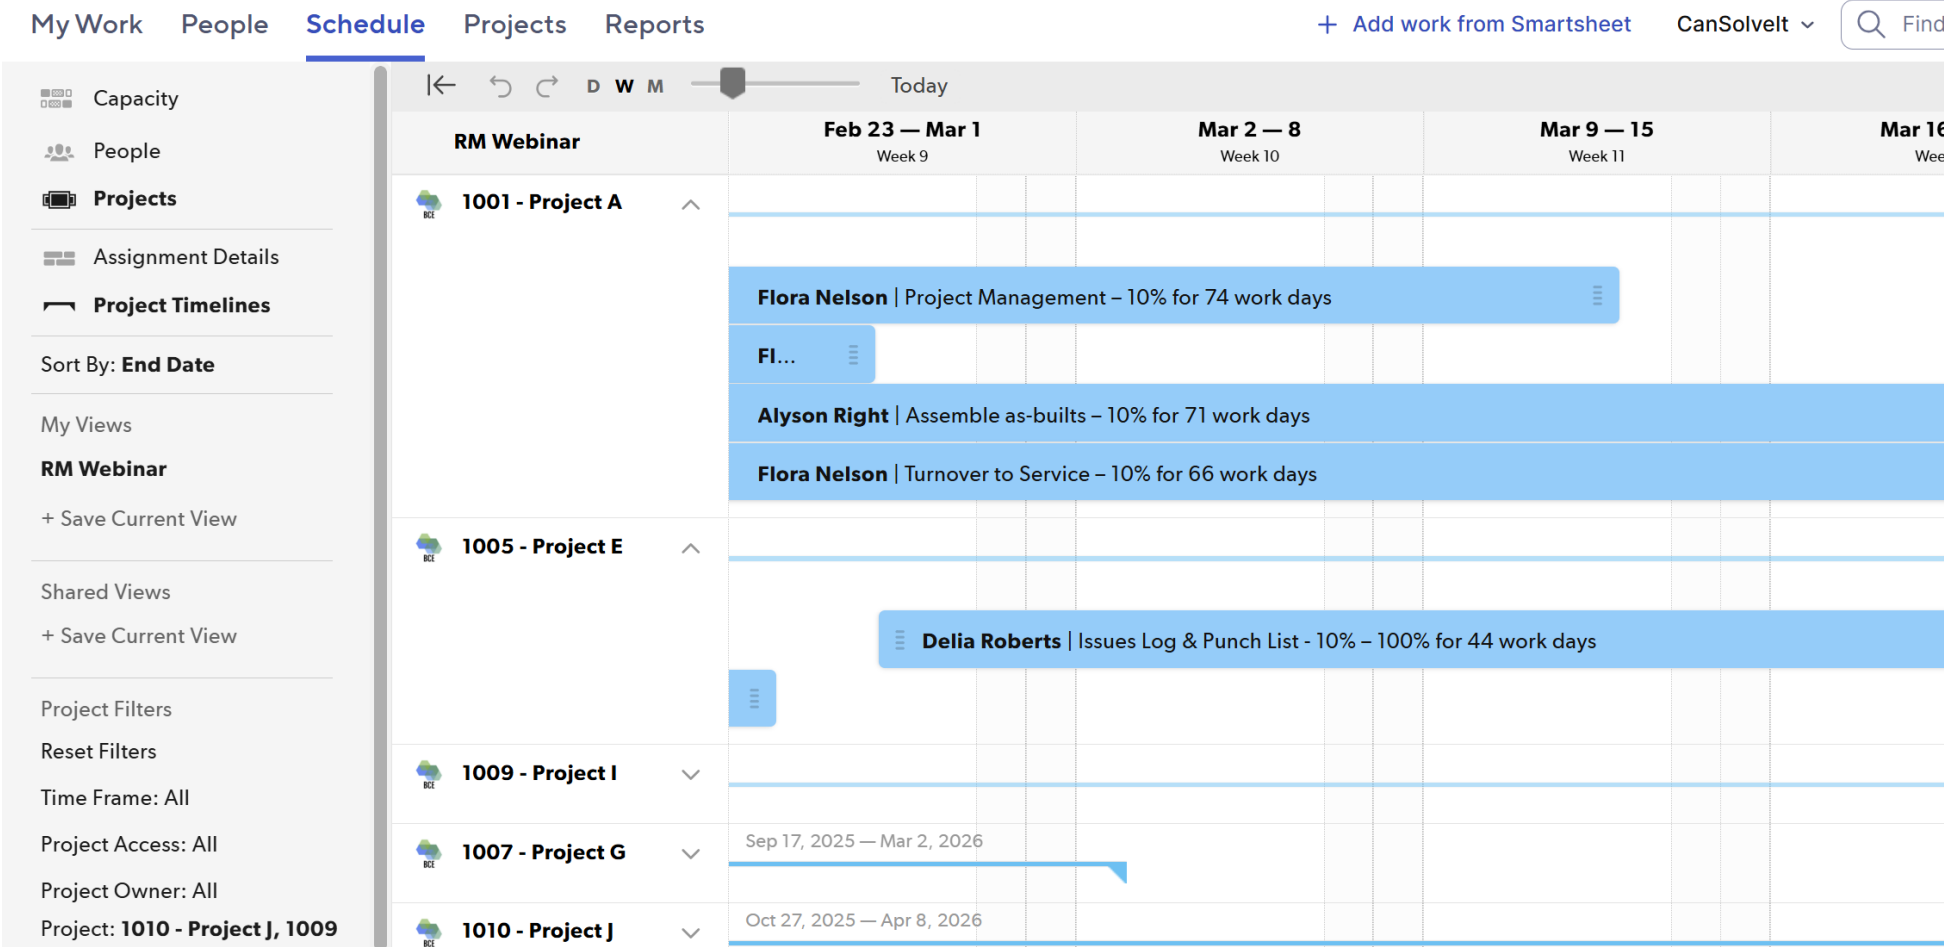

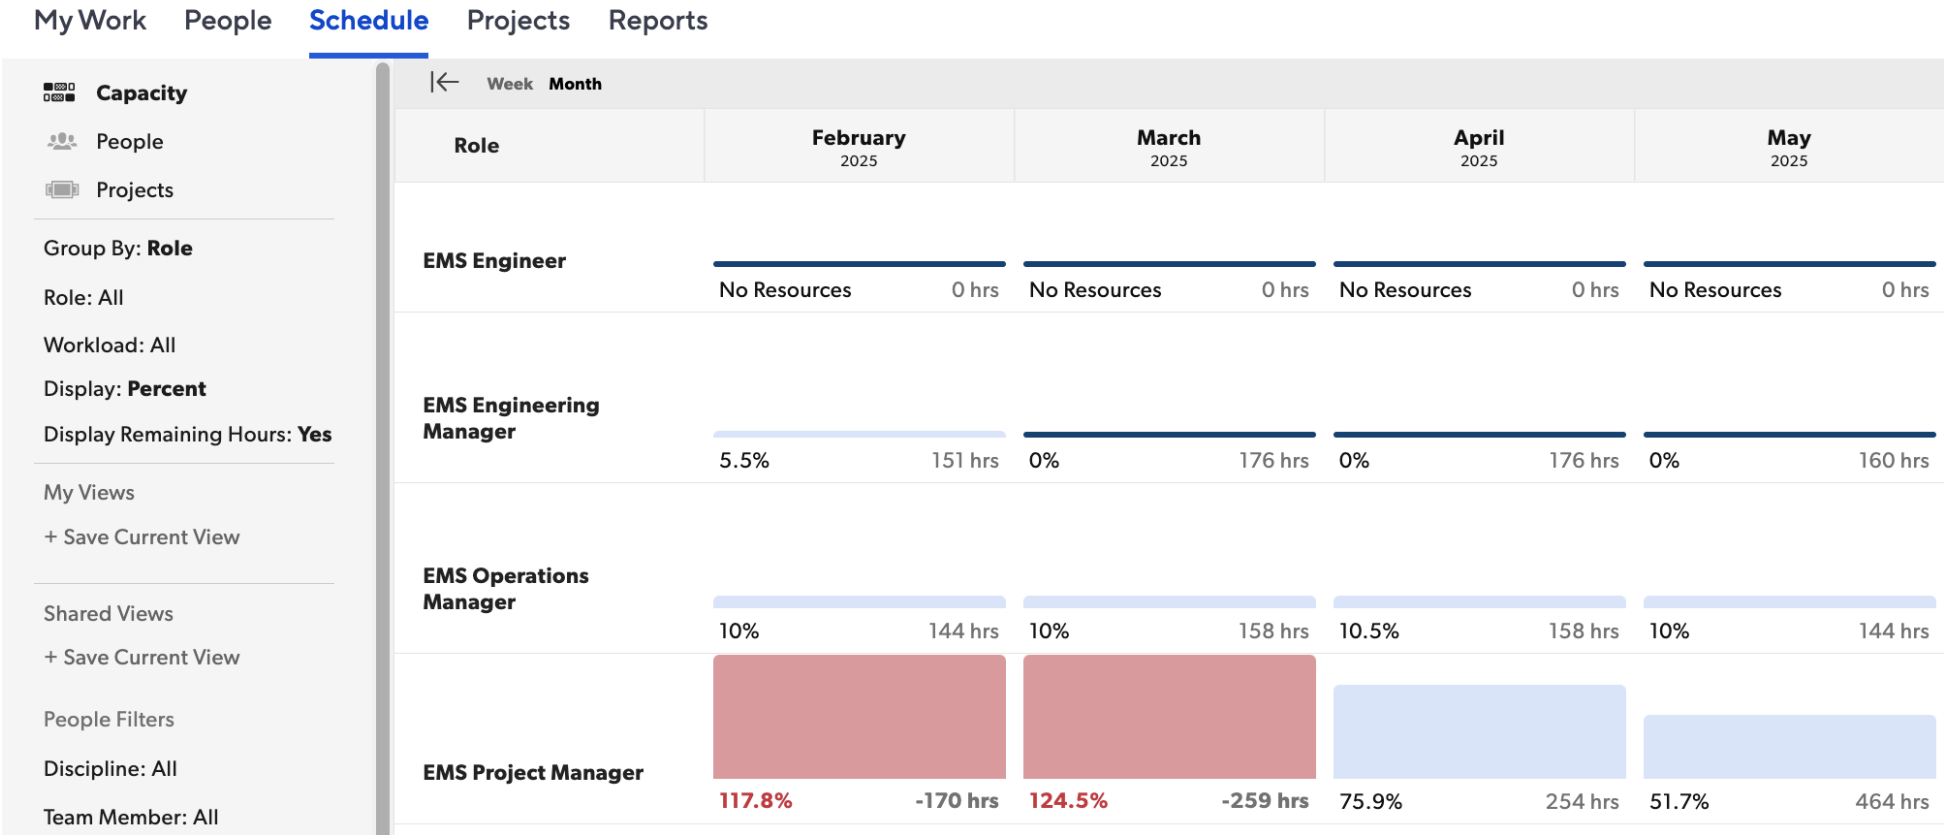

- Open Schedule > People > Allocation Heatmap
- Choose appropriate filters from the left-side panel
- Open the details using the arrow near the team member
- Right-click on an available time > choose New Assignment
- Pick appropriate assignment

Schedule page – other Views

Other Views include:

- Capacity View
 - **Blue** = Under or at 100% capacity.
 - **Light Red** = Above 100% but below 150% capacity.
 - **Red** = 150% capacity or above.
- Projects View

Project Portfolio

Here, you can visualize the entire portfolio of work across organization or department

- You can access detailed information on the project.
- You can organize your portfolio to highlight your most important projects.
- You can find the status information you need for each project.

Client Services Placeholder

Placeholders – Reassigning

To Assign a team member on a place of a Placeholder:

- Through Smartsheet navigate to RM
- Open Projects Page
- Find your project and click on it
- Navigate to Schedule
- Right-click on a team member > choose Reassign
- Pick appropriate team member who matches same qualities

The screenshot displays the 'Schedule' view in Smartsheet, showing a project timeline. The timeline is organized into columns representing different weeks: 'Feb 16 — 22 (Week 8)', 'Feb 23 — Mar 1 (Week 9)', 'Mar 2 — 8 (Week 10)', and 'Mar 9 — 15 (Week 11)'. A list of projects is on the left, including '1001 - Project A', '1005 - Project E', '1009 - Project I', '1007 - Project G', '1010 - Project J', '1008 - Project H', '1004 - Project D', '1006 - Project F', '1003 - Project C', and '1002 - Project B'. A context menu is open over the '1007 - Project G' placeholder, showing options like 'Add Phase', 'Add Team Member', 'View in sheet', 'Assemble as-builts', 'Scheduled', 'Unassign', 'Repeat', and 'Reassign'. The 'Reassign' option is highlighted. A search bar on the right allows filtering team members by name or discipline, with a location filter set to 'Seattle'. The search results show 'Matching People' (Alyson Right, Chloe Moore) and 'Matching Placeholders' ([None]).

My Work page

The My Work page, or personal page, is your dashboard for projects. It opens first when you navigate to RM from Smartsheet

In My Work you can:

- View your assigned tasks and their due dates.

People page

The People page offers a comprehensive overview of your entire team within your organization

Use filters to locate specific team members:

- Through Smartsheet navigate to RM (you will not see this page if using browser to log in)
- Open to People page in RM
- Choose appropriate filters from the left-side panel
- You can add preferred view to My Views
- Or share it with other team members

The screenshot shows the 'People' page in Smartsheet. At the top, there are tabs for 'My Work', 'People' (highlighted with a blue arrow), 'Schedule', 'Projects', and 'Reports'. On the right, there are links for '+ Add work from Smartsheet', 'CanSolveIt', and a search bar 'Find in Resource Managem...'. Below the tabs, the page title is 'RM Webinar' with '11 Matching People' underneath. On the left side, there is a 'My Views' section with 'RM Webinar' selected (indicated by a blue arrow) and a '+ Save Current View' button. Below this is a 'Shared Views' section with a '+ Save Current View' button and a list of filters: 'Show Everyone', 'Team Member: All', 'Office Status: All', 'Discipline: All', 'Role: All', 'Location: All', 'Approver: All', 'Language: All', 'Skills: All', and 'People Tags: Webinar'. The main area displays a table of team members with columns for 'First Name', 'Last Name', 'Office Status', 'Discipline', 'Role', 'Location', and 'Email'. The table lists 11 people, including Alyson Right, Ava Johnson, Chloe Moore, Delia Roberts, Demo CanSolveIt, Elizabeth Martin, Farah Roberts, and Flora Nelson. A blue arrow points to the 'People' tab, and another blue arrow points to the 'RM Webinar' view in the left sidebar.
